PROFESSIONAL SUMMARY

Software Engineer with hands-on professional experience building Unity-based interactive applications and web/software features, currently delivering game development and web integration work at Hudsmer Business Solutions. Skilled in C#/Unity 3D & 2D, multiplayer networking with Photon PUN and Unity Gaming Services, and web technologies including Firebase-based real-time features. Strong foundation in Python, SQL, and cloud/AI fundamentals, with a growing focus on cybersecurity. Known for quickly picking up new tools and delivering working features across both game and web platforms.

TECHNICAL SKILLS

Languages: Python, C, C#, Java, SQL, HTML, CSS, JavaScript
Game Development: Unity 3D, Unity 2D, Photon PUN, Unity Gaming Services (UGS), AR/VR
Web & Backend: Firebase (Cloud Messaging), Web Push Notifications, Form Automation, Web Scraping, REST-style integrations, SQL & DBMS
Tools & Platforms: Git, Linux, Oracle APEX, Jira, Audacity, AI-assisted development (GPT)

PROFESSIONAL EXPERIENCE

Software Engineer — Hudsmer Business Solutions

Coimbatore, Tamil Nadu | June 2025 – Present

- Contributed to Unity-based game and interactive application development, implementing gameplay mechanics, UI systems, and multiplayer functionality using C# and Photon PUN.
- Built and integrated a web push notification feature using Firebase Cloud Messaging, enabling real-time alerts and improving user engagement on web platforms.
- Developed an advertisement board module for company websites, supporting dynamic ad content management and display.
- Worked across a mix of Unity and web/software projects, applying skills in C#, JavaScript, and Firebase to deliver features spanning gameplay, front-end, and real-time integrations.

Intern — Oracle APEX

16-Week Internship

- Gained hands-on exposure to low-code application development, database-driven forms, and reporting using Oracle APEX.

KEY PROJECTS

Cybersecurity

File Integrity Monitoring System | Python, SHA-256, JSON, File Security

- Developed a Python-based file integrity monitoring system to detect unauthorized file changes.
- Generated SHA-256 hashes and maintained a baseline for monitored files.
- Detected modified, deleted, and newly created files through hash and directory comparison.
- Generated a simple security report showing detected file changes.

Web & Automation Projects

- Web Push Notification System — Built a Firebase Cloud Messaging–based system to deliver real-time push notifications on web platforms.
- Form Automation Tool — Automated repetitive form-filling and data-entry workflows using Python.
- Advertisement Board — Developed a dynamic advertisement management module for company websites.
- Web Scraping Tool — Built Python scripts to extract data from open websites that permit scraping, respecting robots.txt and site usage policies.

Software & Database Projects

- Airline Management System — Designed a relational database and management system using SQL & DBMS.
- Gym Management System — Built a membership and scheduling management application in Java.
- E-Learning Recommendation System — Developed a recommendation engine for personalized learning content using Machine Learning.

Multiplayer & Game Development

- CarRacing Multiplayer Game — Built a real-time multiplayer racing game using Unity 3D, Photon PUN, and Unity Gaming Services (UGS).
- FPS Multiplayer Game — Developed a first-person shooter with networked multiplayer functionality using Unity 3D and Photon.
- Rubrixo Game — Designed and built a 3D puzzle/arcade game in Unity 3D.
- Parking Jam Escape — Created a 3D puzzle game focused on spatial logic and level design in Unity 3D.
- UnPuzzle — Built a 2D puzzle game in Unity 2D with custom level mechanics.
- 2048 Legend — Developed a browser-based puzzle game using HTML, CSS, and JavaScript.

EDUCATION

B.E. in Computer Science & Engineering

National Engineering College, Kovilpatti | 2021 – 2025

Higher Secondary Certificate (HSC) — 78.4%

Edustar International School, Kovilpatti | 2021

SSLC — 64%

Edustar International School, Kovilpatti | 2019

COURSES & CERTIFICATIONS

- edX (IBM) — Cybersecurity Basics
- NPTEL — Cloud Computing
- NPTEL — IIOT 4.0
- NPTEL — Fundamentals of Artificial Intelligence
- Infosys Springboard — HTML, CSS, JS
- Coursera — C for Everyone
- SoloLearn — C Programming

ACHIEVEMENTS & PARTICIPATION

- Participated in the IEEE ADSF Conference.
- Completed 1,400+ programming problems on Skillrack.
- Secured 7th place out of 70 teams in Coding22 at Sudarsan Engineering College.
